Work amount follow up

					Name	Muhammad Waseem Imran	
					Group		
					Project	Team #	

Date	Pr.planning	**Hours done** Sprint 1	Sprint 2			Discribtion	
	1					Test daata	
3.1.1900	3,5					Project meeting, organizing meeting memo, preparing work amount form	
20.3.2025	2,5					Team members first project meeting. Understand and alligned work with plan	
26.3.2025	1,5					Learning how to fetch data from the API provided by Marjetas OY. Along with provider data with test	
27.3.2025	2,5					Worked with Api, and get camera, base api, and tried to get API, which we needed according to sequence but could not reach any point	
29.3.2025	1,5					Got the code with shared project with fellows and try to run and understand their apporaches and see the flow of API	
2.4.2025	1					Worked on API still specially, for Camera, Friction and others that we need to use further.. Though there are numbers of API,but flow and parameters are still a challange while we were using that.	
8.4.2025	2					Worked on Openstreet map API, and get something regarding custom feature like shorters path etc	
12.4.2025	1					project meeting, generating presentation layout	
14.4.2025	3					Worked with shortest path and tried with alternativie routes and get first 3 only	
15.4.2025	2					Tried Google Map and go with different apporach with more information	
16.4.2025	4					Google map setup map and implment Place and location Api's, Somehow, I got better resutls like get more inforamtion, detail path with stops and checkpoints. But the points	
18.4.2025	3					Tried to map approach open streen	
						That work I have done and good good results with google map
